Students' Green Fund Community

Growhampton

What is Growhampton

GROWHAMPTON ()

- Sustainability project with a big focus on food growing
- Established productive food growing sites on our university campus grounds
- Opened a café specialising in local, organic, ethical food
- Working with the community to engage more people and strengthen the social aims of the project

Setting up our growing spaces

First task to set up our growing spaces

Worked with:

- Cultivate London
- The Big Dig
- Give & Gain 2014

Community café

- Open to the community
- Community feel and spirit
- Supporting community partners

Partnership with The Feel Good Bakery

- The Hive Café social enterprise has partnered with the Feel Good Bakery social enterprise
- The Feel Good Bakery provide employment and training opportunities for young people who are out of work
- The Hive Café sells Feel Good Bakery sandwiches and provides them with produce
- The Feel Good Bakery provides us with healthy, local sandwiches made fresh each morning
- Each sandwich sold provides a meal for a child in a developing country

Market Day at The Hive Café

Bread Angels are a community of local home bakers.
 Growhampton are facilitating a bread club at The Hive Cafes' Thursday Market days

Sharing the good news

 Partnership with the Wandsworth Guardian has ensured Growhampton is able to share advice on organic growing with the local community

What's next

• Working with the Roehampton community to establish a veggie box scheme

SGF Community Engagement

Newcastle University

Environment Community Engagement Sustainable Development Social Enterprise

SGF @ Newcastle - Project Aims

- To build on our environmental and sustainable beliefs and strengthen our University partnership
- To increase student participation in green activity and educate others through practical shared action
- To promote a deeper understanding of sustainable food sourcing, growth, distribution and consumption amongst the student population
- To capitalise on students' drive, enthusiasm and skills to spread the sustainable living message to the wider community
- To leave a lasting legacy for the future and establish new community partnerships.

SGF Projects & Partnerships

"It was brilliant to get the opportunity to camp out in the wilds – it was great for the young people to get an experience of wilderness camping and cooking on a campfire – totally different for them"

SGF Green Markets

- Newcastle students are selling local, student-grown fruit, vegetables and herbs to students, university staff and the wider public.
- Over 1800 students, staff and local residents have perused and purchased local, sustainable produce from the Green markets so far.

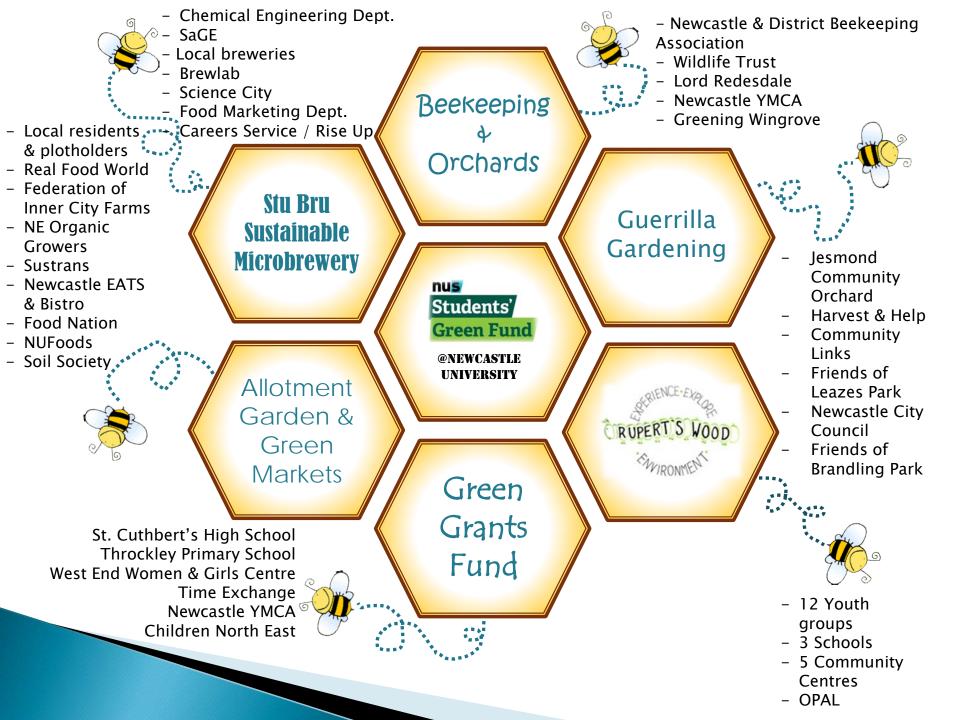

Green Grants

- A £20,000 fund to enable students to fund new projects that will have a positive impact on young people's thinking about sustainability.
- Grants are awarded by a panel of students and can range from £200 - £2000.
- The projects encourage children, young people, students and the wider community to reduce, reuse, recycle and rethink what they do with waste, water, air, energy and biodiversity.

Collaborations with Community groups

"I felt that a community growing project could help bring the two different resident groups together, while simultaneously creating more green spaces in LS6. These green spaces could be a focal point for the community, garnering greater affection and care for the area, and becoming something positive that persisted even after students had moved on or changed homes."

"The Green Exchange gave me the funding and contacts I needed to help form the idea, buy in all the materials, and advertise for the growing days. It's been an amazing learning experience, that has taught me an incredible amount about project management, budgeting and promotion."

Eat, Learn & Grow

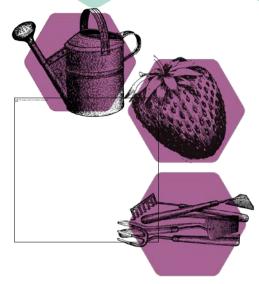

Bardon Grange walled garden

Community members and students

Relationships and learning

Salad enterprise

Workshops

"the garden has grown so much!! its so good to look back at this picture and see how it has developed and the amount of food we are now producing!"

Live, Shop & Explore

Encouraging students to engage with the community in a sustainable way through shopping locally and supporting independent businesses

Support existing initiatives at LUU like Leave Leeds Tidy.

Leave Leeds Tidy

Student Changeover project

Student Champions

Year round charity shop

Over 70 tonnes diverted from landfill

Community free shop in partnership with food cycle

"Many people's tenancies end on the last day of June, which can generate a lot of waste in the area but it is great that we can work in partnership with other student unions, universities, local charities and the council to ensure that we can reuse as much as possible. It is a great opportunity for everyone to get involved, give back to their community and take pride into their area. The volunteering opportunities in the charity also allow people to develop new skills from creatively recycling old items to communications."

- Frankie O'Byrne, Community Officer.

STAR Bikes Leeds @star bikes · Jun 24

Many thanks to all those who have retweeted about donating bikes, thanks @LeaveLeedsTidy for your tireless efforts!

Rosie Kightly Stoker @Rosamaphone · Jun 30 @LeaveLeedsTidy One of the best things going in Leeds! Simple yet effective & for brilliant causes! Attitudes will & have changed! #AceStuff

It has been great to be a part of something that has such a positive influence on the lives of both students and local residents in the city. We want to minimise the impact that the student changeover period has on the local community through raising awareness about the environmental and advice services on offer through the university unions, the universities and the council. And in doing so, we hope to change perceptions and ideas about recycling and waste in the long term.

- Rosie Collington, LLT communications assistant.
